

Ladybug Wings, a Sculpture

1. Cut out the two parts, **A** and **B**, of your ladybug, cutting along the green lines. Be sure to cut open the red wings.

2. **Part A.**  Fold up along the  on the red wings.

3.  Fold down along the  on the red wings.

4. Fold the black belly down under the red wings, and close the wings.

5. **Part B.** Fold the white band under the black body. Next fold the brown wings back on top of the body.

6. Match the rounded back ends of part **B** to part **A**  and glue together.

7. Fold each brown wing down along  lines, and up along  lines. One wing will rest on top of the other, snugly folded.

8. Put a dab of glue behind the head and press down.

9. Swing the red elytra wings forward to reveal the tucked up brown flight wings "Ladybug, Ladybug fly away home!"
